

## Selection of 100 Funding Opportunities in Global Health 12 January 2021

|                     |  |
|---------------------|--|
| 1 Name of the grant | <b>NIHR Global Health Research Centres (research and innovation) - I</b>   |
| Short description   | Funding for institutional partnerships to undertake research in non-communicable diseases and build research capacity. |
| Value of the grant  | More than 1,000,000 GBP  |
| Funders             | Department for International Development   |
| Posted              | 14 Oct 2020  |
| Deadline            | 31 Mar 2021  |
| Link                | <a href="#">Click here</a>   |

|                     |   |
|---------------------|---|
| 2 Name of the grant | <b>NIHR Global Health Research Centres (research and innovation) - II</b>   |
| Short description   | Funding for partnerships between specialist academic groups in the UK and ODA-eligible countries who wish to expand into the field of applied global health research. |
| Value of the grant  | More than 1,000,000 GBP   |
| Funders             | Department for International Development  |
| Posted              | 11 Dec 2020   |
| Deadline            | 18 May 2021   |
| Link                | <a href="#">Click here</a>  |

|                     |  |
|---------------------|--|
| 3 Name of the grant | <b>NIHR Global Health Research Centres (research and innovation) - III</b>   |
| Short description   | Funding for well-established applied global health research partnerships between researchers in the UK and ODA-eligible countries. |
| Value of the grant  | More than 1,000,000 GBP  |
| Funders             | Department for International Development   |
| Posted              | 11 Dec 2020  |
| Deadline            | 18 May 2021  |
| Link                | <a href="#">Click here</a>   |

|                     |  |
|---------------------|--|
| 4 Name of the grant | <b>NIHR Research and Innovation for Global Health Transformation (RIGHT) programme (research and innovation)</b>                 |
| Short description   | Funding for global health research on unintentional injuries, and urgent and emergency care, in low and middle income countries. |
| Value of the grant  | More than 1,000,000 GBP  |
| Funders             | Department for International Development   |
| Posted              | 09 Dec 2020  |
| Deadline            | 10 Mar 2021  |
| Link                | <a href="#">Click here</a>   |

|                     |  |
|---------------------|--|
| 5 Name of the grant | <b>Applied global health research: improve health in LMICs</b> |
| Short description   | /  |
| Value of the grant  | 350,000 - 1,000,000 GBP  |
| Funders             | Medical Research Council (MRC)                                 |
| Posted              | 01 Feb 2021 (Publication date 26 Nov 2020)                     |
| Deadline            | 14 Apr 2021  |
| Link                | <a href="#">Click here</a>                                     |

|                     |  |
|---------------------|--|
| 6 Name of the grant | <b>Joint Global Health Trials Scheme</b>   |
| Short description   | Funding late-stage trials of interventions that will provide evidence to help improve health in low- and middle-income countries.                            |
| Value of the grant  | Up to 200,000 GBP  |
| Funders             | Foreign, Commonwealth & Development Office (FCDO), the UK Medical Research Council (MRC), the National Institute for Health Research and the Wellcome Trust. |
| Posted              | /  |
| Deadline            | 25 Feb 2021  |
| Link                | <a href="#">Click here</a>   |

|                     |  |
|---------------------|--|
| 7 Name of the grant | <b>Research and Innovation for Global Health Transformation - Call 4</b>   |
| Short description   | The fourth call of the Research and Innovation for Global Health Transformation (RIGHT) programme will fund research on unintentional injuries, and urgent and emergency care, in low and middle income countries (LMICs). |
| Value of the grant  | 1,000,000-5,000,000 GBP  |
| Funders             | National Health for Health Research  |
| Posted              | 11 Nov 2020  |
| Deadline            | 10 Mar 2021  |
| Link                | <a href="#">Click here</a>   |

|                     |  |
|---------------------|--|
| 8 Name of the grant | <b>Global Health Research Centres Call 1 - Research and Institutional Capacity Strengthening in Non-Communicable Diseases</b>                            |
| Short description   | The first call of the Global Health Research Centres programme will fund and designate NIHR Global Health Research Centres in non-communicable diseases. |
| Value of the grant  | Up to 10,000,000 GBP   |
| Funders             | National Health for Health Research  |
| Posted              | 14 Oct 2020  |
| Deadline            | 31 Mar 2021  |
| Link                | <a href="#">Click here</a>   |

|                     |   |
|---------------------|---|
| 9 Name of the grant | <b>NIHR Global Health Research Presentation and Training Travel Award Pilot (GHR PTTA)</b>  |
| Short description   | This award gives applicants the opportunity to plan a personalised presentation, training (skills/techniques/career development) and networking experience in another part of the NIHR (within the UK or a LMIC). The experience should contribute to the individual's personal and professional development, build sustainable links/collaborations, and help them succeed in their future career. |
| Value of the grant  | /   |
| Funders             | National Health for Health Research   |
| Posted              | 27 Aug 2020   |
| Deadline            | 27 Jan 2021   |
| Link                | <a href="#">Click here</a>  |

|                      |  |
|----------------------|--|
| 10 Name of the grant | <b>NIHR Global Health Research Units</b>   |
| Short description    | These awards will provide funding to collaborations of specialist researchers within universities and research institutes in LMICs and the UK who wish to establish new programmes of applied health research. Global Health Research Units will have an existing track record of delivering internationally recognised applied global health research and wish to consolidate and expand this work. |
| Value of the grant   | /  |
| Funders              | National Health for Health Research  |
| Posted               | 02 Jun 2020  |
| Deadline             | 18 May 2021  |
| Link                 | <a href="#">Click here</a>   |

|                      |   |
|----------------------|---|
| 11 Name of the grant | <b>NIHR Global Health Research Groups</b>   |
| Short description    | These awards will provide funding to collaborations of specialist researchers within universities and research institutes in LMICs and the UK who wish to establish new programmes of applied health research. Global Health Research Groups will be either new to delivering applied health research globally or wish to expand an existing partnership. |
| Value of the grant   | /   |
| Funders              | National Health for Health Research   |
| Posted               | 02 Jun 2020   |
| Deadline             | 18 May 2021   |
| Link                 | <a href="#">Click here</a>  |

|                      |  |
|----------------------|--|
| 12 Name of the grant | <b>ICODA COVID-19 data science pilot programme</b>   |
| Short description    | This supports collaborative research studies that use health data to address major questions related to COVID-19. Proposals may focus on one of a range of COVID-19 research areas, including: natural disease history; epidemiology and transmission; vaccines and prophylaxis; infection, prevention and control; therapeutics; clinical management. |
| Value of the grant   | 100.000 USD  |
| Funders              | Bill and Melinda Gates Foundation  |
| Posted               | 17 Dec 2020  |
| Deadline             | 19 Jan 2021  |
| Link                 | <a href="#">Click here</a>   |

|                      |  |
|----------------------|--|
| 13 Name of the grant | <b>Global health research programme - research and innovation for global health transformation</b>   |
| Short description    | This award addresses the global burden of unintentional injuries, accidents, urgent and emergency care in low- and middle-income countries (LMIC) through high quality, interdisciplinary applied health research. |
| Value of the grant   | 5.000.000 GBP  |
| Funders              | Department of Health and Social Care including NIHR, GB  |
| Posted               | 11 Nov 2020  |
| Deadline             | 10 Feb 2021  |
| Link                 | <a href="#">Click here</a>   |

|                      |   |
|----------------------|---|
| 14 Name of the grant | <b>Health services quality accelerator</b>  |
| Short description    | This institution seeks new and innovative approaches aimed at accelerating progress towards the equitable quality of reproductive, maternal, newborn and child health (RMNCH) throughout the continuum of care in Jordan. The main priorities are to improve the quality of the supply side of healthcare and to identify and address some of the |

|                    |  |
|--------------------|--|
|                    | barriers that hinder equitable access and utilisation of RMNCH services. The aim is to specifically target disadvantaged segments of the population. |
| Value of the grant | 39,000,000 USD   |
| Funders            | US Agency for International Development, US  |
| Posted             | 16 Dec 2020  |
| Deadline           | 12 Feb 2021  |
| Link               | <a href="#">Click here</a>   |

|                      |  |
|----------------------|--|
| 15 Name of the grant | <b>Global health research centres</b>  |
| Short description    | These centres support strengthening research capacity in low and middle-income countries and undertaking high-quality research addressing the growing burden of non-communicable diseases. |
| Value of the grant   | 10,000,000 GBP   |
| Funders              | Department of Health and Social Care including NIHR, GB  |
| Posted               | 15 Oct 2020  |
| Deadline             | 31 Mar 2021  |
| Link                 | <a href="#">Click here</a>   |

|                      |   |
|----------------------|---|
| 16 Name of the grant | <b>Global health research groups awards</b>   |
| Short description    | These provide funding to collaborations of specialist researchers within universities and research institutes in LMICs and the UK who wish to establish new programmes of applied health research. Groups will be either new to delivering applied health research globally or wish to expand an existing partnership. They will address unmet global health needs through equitable research partnerships. |
| Value of the grant   | 3,000,000 GBP   |
| Funders              | Department of Health and Social Care including NIHR, GB   |
| Posted               | 20 Nov 2020   |
| Deadline             | 20 Apr 2021   |
| Link                 | <a href="#">Click here</a>  |

|                      |   |
|----------------------|---|
| 17 Name of the grant | <b>Research grants - applied health research</b>  |
| Short description    | Grants support global health research that is embedded within local contexts in low- and middle-income countries.   |
| Value of the grant   | Grants usually fund 80 per cent of the full economic costs for a period of up to five years, and cover salaries, additional costs, equipment, travel costs and data preservation, data sharing and dissemination costs. |
| Funders              | Medical Research Council (MRC), GB and other founders   |
| Posted               | 08 Jun 2020   |
| Deadline             | 13 Apr 2021 (Forecast)  |
| Link                 | <a href="#">Click here</a>  |

|                      |   |

| 21 Name of the grant | <b>Global health research units</b>  |
| Short description    | These provide funding to collaborations of specialist researchers within universities and research institutes in LMICs and the UK who wish to establish new programmes of applied health research. Groups will be either new to delivering applied health research globally or wish to expand an existing partnership. |
| Value of the grant   | 7,000,000 GBP  |
| Funders              | Department of Health and Social Care including NIHR, GB  |
| Posted               | 20 Nov 2020  |
| Deadline             | 20 Apr 2021  |
| Link                 | <a href="#">Click here</a>   |

|                      |  |
|----------------------|--|
| 22 Name of the grant | <b>John Dirks global health award</b>  |
| Short description    | This award recognises a scientist whose scientific advances have made a significant impact on health outcomes in the developing world. |
| Value of the grant   | 100,000 CAD  |
| Funders              | Gairdner Foundation, CA  |
| Posted               | 16 Jul 2020  |
| Deadline             | 01 Oct 2021 (Forecast)   |
| Link                 | <a href="#">Click here</a>   |

|                      |   |
|----------------------|---|
| 23 Name of the grant | <b>Joint Global Health Trials Scheme - global health trial research grants</b>  |
| Short description    | This grant supports research that addresses the health problems affecting LMICs by funding definitive trials that are likely to produce implementable and generalisable results to change policy and practice. Trials should address the major causes of mortality or morbidity in LMICs, particularly those that affect the most vulnerable populations. |
| Value of the grant   | 20,000,000 GBP  |
| Funders              | Medical Research Council (MRC), GB and other founders   |
| Posted               | 12 Jun 2020   |
| Deadline             | 08 Oct 2021 (Forecast)  |
| Link                 | <a href="#">Click here</a>  |

|                      |   |
|----------------------|---|
| 24 Name of the grant | <b>Health systems research initiative eight call - providing evidence to strengthen health systems in low- and middle-income countries, research grants</b>   |
| Short description    | This grant supports world-class and cutting-edge research that addresses key questions on strengthening and improving health systems in developing countries. |
| Value of the grant   | 4,000,000 GBP   |
| Funders              | Medical Research Council (MRC), GB and other founders   |
| Posted               | 15 Oct 2020   |
| Deadline             | 19 Jan 2021   |
| Link                 | <a href="#">Click here</a>  |

|                      |  |
|----------------------|--|
| 25 Name of the grant | <b>Ecology and evolution of infectious diseases</b>  |
| Short description    | This supports collaborative research on the ecological, evolutionary and social drivers that influence the transmission dynamics of infectious diseases. Proposals should focus on understanding the determinants and interactions of transmission of diseases to humans, non-human animals or plants. |
| Value of the grant   | 2,500,000 USD  |
| Funders              | National Science Foundation, US and other founders   |
| Posted               | 14 Jul 2020  |
| Deadline             | 17 Nov 2021  |
| Link                 | <a href="#">Click here</a>   |

|                      |  |
|----------------------|--|
| 26 Name of the grant | <b>Team grant - diabetes prevention and treatment in Indigenous communities - resilience and wellness</b>  |
| Short description    | This grant supports Indigenous-led and community-driven research to define and integrate models of resilience and wellness into diabetes prevention or treatment approaches among First Nations, Inuit and Métis Peoples |
| Value of the grant   | 2,000,000 CAD  |
| Funders              | Canadian Institute of Health Research / Instituts de Recherche en Sante du Canada  |
| Posted               | 24 Nov 2020  |
| Deadline             | 26 May 2021  |
| Link                 | <a href="#">Click here</a>   |

|                      |   |
|----------------------|---|
| 27 Name of the grant | <b>Major project grant - health</b>   |
| Short description    | This supports early-career researchers and their teams in undertaking a focused programme of Tasmanian health and medical research. |
| Value of the grant   | 150,000 AUD   |
| Funders              | Royal Hobart Hospital Research Foundation, AU   |
| Posted               | 09 Jun 2020   |
| Deadline             | 25 Jul 2021 (Forecast)  |
| Link                 | <a href="#">Click here</a>  |

|----------------------|---|
| 32 Name of the grant | <b>Maternal nutrition and pregnancy obesity - effects on mothers, infants and children (R01 clinical trial optional)</b>  |
| Short description    | This encourages applications to improve health outcomes for women, infants and children, by stimulating interdisciplinary research focused on maternal nutrition and pre-pregnancy obesity. Maternal health significantly impacts not only the mother but also the intrauterine environment, and subsequently foetal development and the health of the newborn. |
| Value of the grant   | Not specified.  |
| Funders              | NIH: National Institute of Nursing Research, US and other funders   |
| Posted               | 10 May 2018   |
| Deadline             | 05 Feb 2021   |

|----------------------|---|
| 34 Name of the grant | <b>Innovative therapies and tools for screenable disorders in newborns (R03 clinical trial optional)</b>  |
| Short description    | This grant encourages research relevant to the development of therapeutic interventions for potentially fatal or disabling conditions that have been identified through newborn screening, as well as high priority genetic conditions where screening may be possible in the near future. Here, a high priority condition is one where screening is not currently recommended but would significantly benefit from early identification and treatment. |
| Value of the grant   | 50.000 USD  |
| Funders              | NIH: Eunice Kennedy Shriver National Institute of Child Health and Human Development, US and other funders  |
| Posted               | 08 Mar 2018   |

|----------------------|---|
| 45 Name of the grant | <b>Sparks/GOSH child research project grants</b>  |
| Short description    | These grants support paediatric health research, with a focus on complex childhood illness, including rare diseases. Funding supports translational research projects across the spectrum of medical conditions affecting the foetus, neonates and children directly, as well as pregnancy disorders that affect the child. The call also considers applications seeking to understand how COVID-19 affects children, particularly in the context of pre-existing diseases or conditions. |
| Value of the grant   | 250.000 GBP   |
| Funders              | Sparks, GB and other funders  |
| Posted               | 22 Jun 2020   |

|----------------------|---|
| 46 Name of the grant | <b>Fogarty HIV research training programme for low- and middle-income country institutions (D43 clinical trial optional)</b>  |
| Short description    | This grant aims to strengthen the scientific capacity of institutions in LMIC to conduct HIV research relevant to the evolving HIV epidemic in their country. This supports training in a broad range of HIV research areas across HIV prevention, care and treatment including basic, epidemiological, clinical, behavioural and social sciences, implementation, operations, health services and health systems research. |
| Value of the grant   | 280.000 USD   |
| Funders              | NIH: Fogarty International Center, US and other founders  |
| Posted               | 15 May 2019   |

| 61 Name of the grant | <b>Kochon prize</b>  |
| Short description    | This grant recognises nursing, research, innovation and policy and partnership development in the field of tuberculosis. |
| Value of the grant   | 65,000 USD   |
| Funders              | Stop TB Partnership, CH  |
| Posted               | 10 Aug 2020  |
| Deadline             | 24 Aug 2021 (Forecast)   |
| Link                 | <a href="#">Click here</a>   |

|                      |   |
|----------------------|---|
| 62 Name of the grant | <b>Accelerating the pace of drug abuse research using existing data (R01 clinical trial optional)</b>   |
| Short description    | This opportunity encourages the analysis of public use and other extant community-based or clinical datasets to their full potential in order to increase knowledge of aetiology, trajectories of substance using behaviours and their consequences including morbidity and mortality, risk and resilience in the development of psychopathology, and strategies to guide the development, testing, implementation and delivery of high quality, effective and efficient services for the prevention and treatment of substance use disorder and HIV. |
| Value of the grant   | 5.000.000 USD   |
| Funders              | NIH: National Institute on Drug Abuse, US and other funders   |
| Posted               | 10 Sep 2019   |
| Deadline             | 05 Feb 2021   |

| 92 Name of the grant | <b>Grants for biomedical research conducted by young researchers</b>  |
| Short description    | These grants support research projects carried out by young researchers that aim to identify and understand the molecular basis of any human disease, with the exception of amyotrophic lateral sclerosis and cancer. |
| Value of the grant   | 250.000 EUR   |
| Funders              | Cariplo Foundation  |
| Posted               | 18 Feb 2020   |
| Deadline             | 24 Mar 2021   |

| 93 Name of the grant | <b>Health services and delivery research programme – researcher-led workstream: 20/113</b>   |
| Short description    | This grant supports research that produces evidence to impact on the quality, accessibility and organisation of health and social care services. This includes evaluations of how the NHS and social care might improve delivery of services. The aim is to fund research that will lead to improvements in health services that will be of greatest benefit to the NHS and to patients. |
| Value of the grant   | 50.000 GBP   |
| Funders              | Department of Health and Social Care including NIHR, GB  |
| Posted               | 21 Oct 2020  |
| Deadline             | 04 Feb 2021  |

|----------------------|---|
| 94 Name of the grant | <b>Project grants - specific research areas</b>   |
| Short description    | These grants support ideas that have the greatest potential to advance health-related knowledge, health research, healthcare, health systems or health outcomes in priority research areas. |
| Value of the grant   | 100.000 CAD   |
| Funders              | Canadian Institutes of Health Research   Instituts de Recherche en Santé du Canada, CA and other funders  |
| Posted               | 17 Aug 2020   |
| Deadline             | 16 Mar 2021   |

| 95 Name of the grant | <b>Notice of special interest – research to address vaccine hesitancy, uptake and implementation among populations that experience health disparities</b>   |
| Short description    | This supports research projects that evaluate strategies to facilitate vaccination uptake in clinical and community contexts, and address the barriers to increasing reach, access and uptake of vaccinations among health disparity populations at high risk and likely to experience vaccine hesitancy. |
| Value of the grant   | Not specified.  |
| Funders              | NIH: National Institute on Minority Health and Health Disparities, US and other funders   |
| Posted               | 18 Dec 2020   |

|----------------------|--|
| 97 Name of the grant | <b>Data science collaborative research programme</b>   |
| Short description    | This grant supports synergistic research collaborations rooted in data science. They should lead to new or improved core data science algorithms, methods or technologies or explore and expand data science applications to scientific problems within the scope of the foundation's data science initiative. |
| Value of the grant   | DKK 60,000,000.00  |
| Funders              | Novo Nordisk Foundation  |
| Posted               | 23 Dec 2020  |
| Deadline             | 16 Mar 2021  |

|-----------------------|--|
| 100 Name of the grant | <b>Entrepreneurs for resilience award</b>  |
| Short description     | This grant recognises entrepreneurial initiatives that take innovative approaches to building resilient societies and realising the UN sustainable development goals. The theme for this round is innovative solutions that increase financial access to healthcare in low-income countries. More specifically, the focus is on market-based solutions that: increase the household resources available for healthcare; or reduce health shocks that lead to poverty or economic vulnerability following a disease or an accident. |
| Value of the grant    | 350.000 USD  |
| Funders               | Swiss Re Foundation, CH  |
| Posted                | 08 Oct 2020  |
| Deadline              | 08 Nov 2021 (Forecast)   |
